

Ergomaxx is a trusted name in the Indian furniture industry for over two decades, and manufactures furniture for all office applications covering open office systems, modular furniture, workstations, chairs & tables, complying to ISO 9001 standards.

To maximize productivity and workspace with the right partition system and appropriate materials is the hallmark of an effective modular solution.

Ergomaxx delivers high ergonomics, using the immensely flexible tile based system. Its versatile design enables the architect to maximize utilization of space at minimum cost.

Comparable to the carpenter's !

Only the finest materials are used at the component and finishing levels, providing absolute strength and durability to the construction.

Open office plan just caught up with the information age. With a robust modular furniture solution having upward compatibility & backward integration capabilities! A functional and flexible system that puts conventional carpentry to shame and throws a confident challenge to panel based partitioning.

Ergomaxx Modular

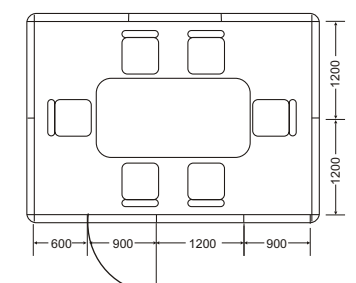

Quick & Good

- C**avity based, with an impressive space for cables
- F**lexibility in alteration with minimum down time
- M**odifications of data cabling in no time
- F**actory made components ensuring high quality finish
- E**asy refurbishing

Even as the on-site work is in progress, the Ergomaxx Modular Solution is readied in the factory, resulting in "least installation time"!

Ergomaxx Modular

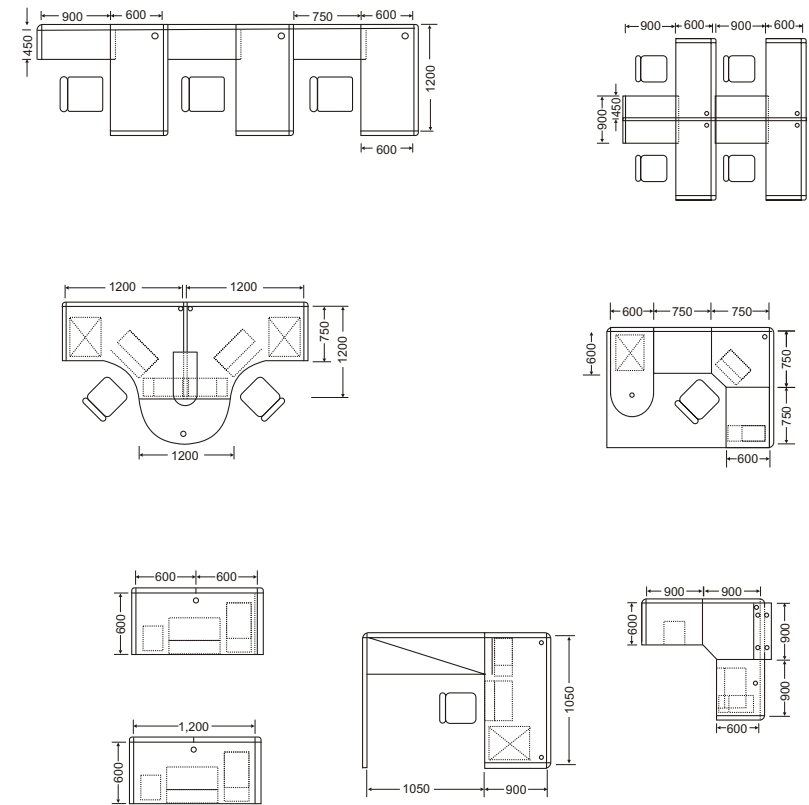

The Ergomaxx system comprises tiles made of Medium density fibre board supported by specially extruded aluminium sections and upholstered with fabric of the customer's preference. Space between parallel MDF surfaces act as cavity for data & power cables. Work surfaces, accessories & furniture are part of the solution.

Provision for electric plugs are available within the tiles, making the entire cabling totally concealed and hassle-free (wiring & routing modifications can be done in no time !)

Height	Width Options					
900	450	600	750	900	1050	1200
1050	450	600	750	900	1050	1200
1350	450	600	750	900	1050	1200
1500	450	600	750	900	1050	1200
1650	450	600	750	900	1050	1200
1800	450	600	750	900	1050	1200
2200	450	600	750	900	1050	1200

SAMPLE COMBINATIONS

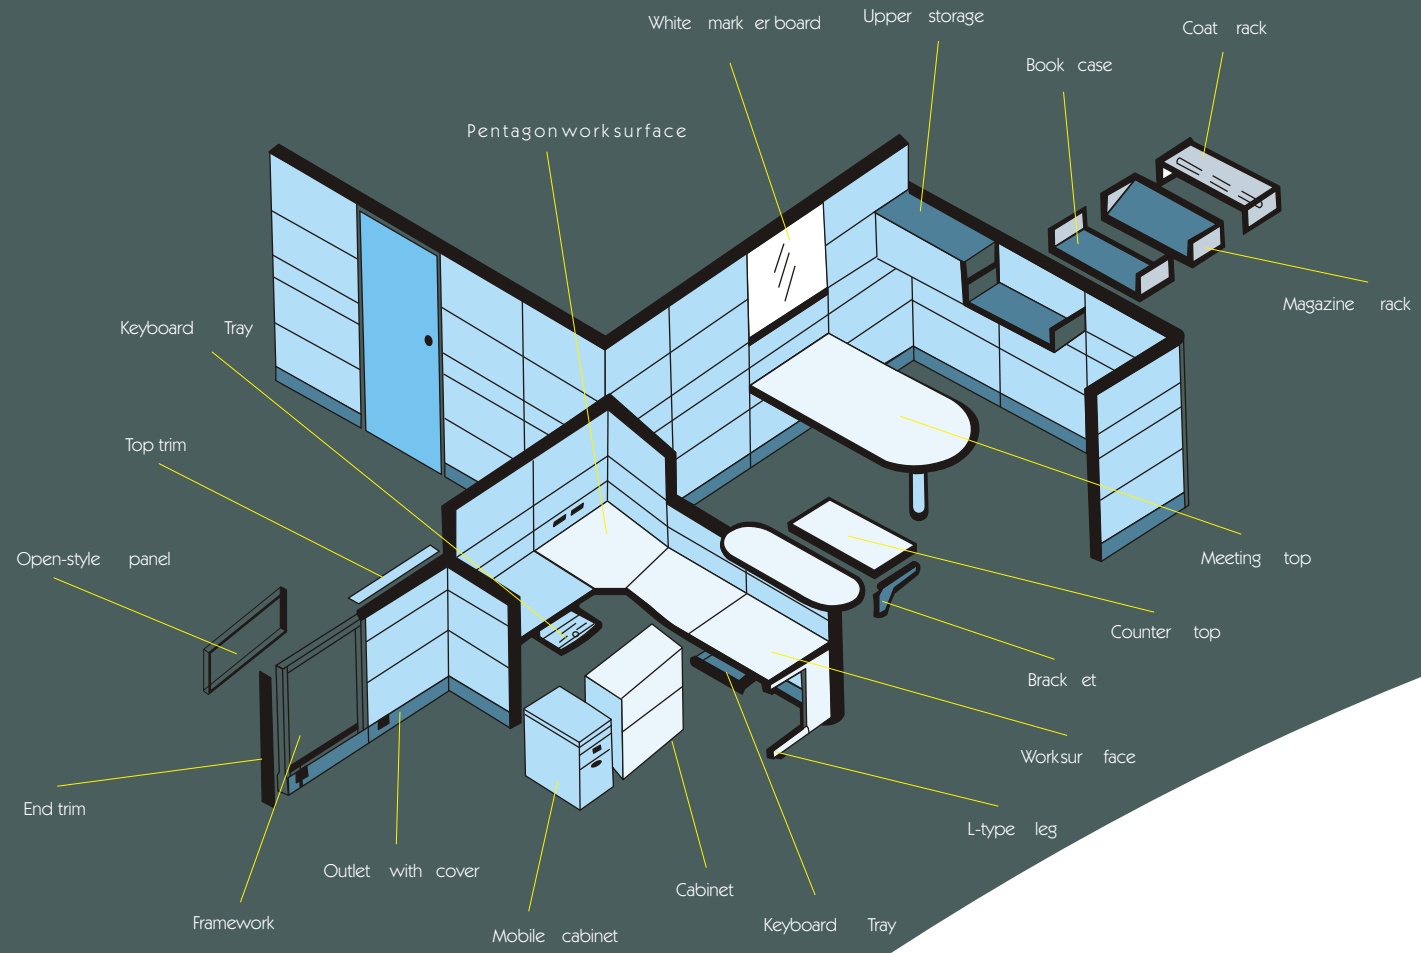

Skirting for cable trunking and damage-proof post formed laminate frames are the other features. Height adjustment mechanisms exist within the skirting to neutralize unevenness on the flooring.

The supplementary media come in wide choices - white board, pin up board or glass.

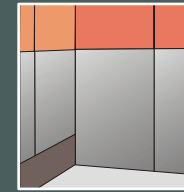

Accessories such as hanging cabinet, shelf, filing drawers, work surface & stationary trays can be sturdily integrated with the system.

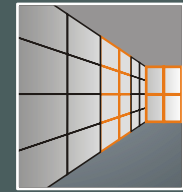

Inviting interiors

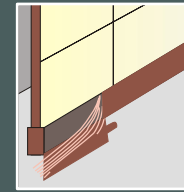

Coat rack (optional).

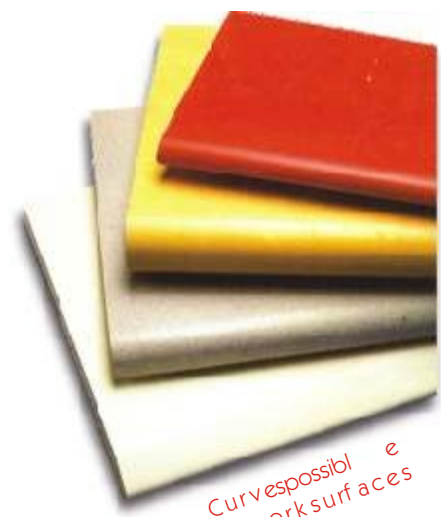

Panels that go all the way to the floor and eliminate the need for base raceway doors.

Full-height walls that add a level of privacy and also enhance the office decor.

Optional skirting cum raceway for better wire management.

Curves possible on work surfaces
